Slider GL 37

Slider GL 37

Slider GL 37

Assembly instruction

Specification

Application area:	Absorption of axial length expansion of max. 37 mm for standing, hanging, horizontal or vertical passed pipes.
Installation advise:	After mounting protection lugs should be turned up, thereby slipping can be avoided.
max. sliding distance axial:	37 mm

Technical data

Material sliding element:	Steel
Surface:	galvanized
Material name sliding stripe:	Polyamide 6
Static friction factor:	0,2 - 0,3
Temperature resistance:	-30 up to 110 °C
