POLAR plus sliding sledge U120 / U140

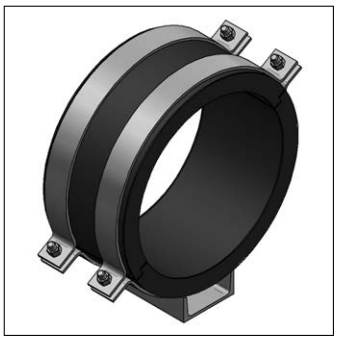

Synthetic rubber / PU

Polar plus sliding support U 120

Polar plus sliding support U

Polar plus sliding support U 140

Specification

Application area: Load-bearing insulation sliding sledge with welded U-profiles for direct sliding on substructure.

Technical data

Material:	Steel
Surface:	galvanized
Material shell:	Polyurethane rigid foam

Delivery time: On demand. Exchange and return are excluded

Remark: Sliding strips see chapter 14. Custom-made products on request.
