Rooftop holder for CENTUM®

XL 80

XL 100

Specification

Application area:	For profile channel constructions on rooftops.
Installation advise:	The pre-assembled floor pad is preventing from damage of roofing (membrane) through softening agents. The square profile is inserted into the rooftop holder for mounting. The use of roof brackets on gravel or extensive greening is not recommended.
Recommended accessories:	Universal wedge and separation fleece see Chapter 2c. For the XL 100 roof bracket, you will also need a hexagon screw M12 x 120, nut M12 and washer.
