Stex 45 mounting plate MP

Stex 45 mounting plate MP

Product description

For assembling rail structures or attachments

Your advantages:

- Insert mounting plate into profile rail, turn by 90°, position, place component and screw in bolt.
- No complicated insertion of tooth bolts or tooth plates required.
- Self-retaining in MEFA profile rail.
- Simplifies the installation of add-on components such as sliding elements and connecting components in rail structures.

Specification

Application area:	Quick fixing system for direct attachment of pipe clamps or threaded connections.
Recommended accessories:	hexagon screw FK 8.8
Type of attachment :	form-locking connection
Profile type:	45

Technical data

Material:	Steel
Surface:	galvanized
